

The *Miami* Implant Update

APRIL 25-26, 2008

Pre-Symposium courses: April 24, 2008

16 Credit
Hours

Miami (Coconut Grove), Florida
The Mayfair Hotel & Spa

AN EDUCATIONAL EXPERIENCE
CREATED BY EXPERTS AND VISIONARIES IN SURGERY, PERIODONTICS,
PROSTHETICS, AND DENTAL TECHNOLOGY.

Sponsored by: Center for Dental Implants of South Florida

THE MIAMI IMPLANT UPDATE...

Dear Friends and Colleagues,

Arun K. Garg, D.M.D.

At the Center for Dental Implants of South Florida, we have two missions, in addition to excellent patient care. One mission is to provide powerful, interesting, dynamic educational experiences for colleagues from around the world. The other is to bring colleagues together in an environment that encourages and supports personal friendships and fellowship. This meeting will achieve both aspects of this part of our mission! Colleagues are given the opportunity to learn from world renowned experts and visionaries in the fields of surgery, periodontics, prosthetics, and dental technology.

Upon Completion of this two-day program, participants will be able to 1) Develop a knowledge base related to treatment planning dental implants; 2) Understand common techniques and modalities to optimize success rates; 3) Understand bone biology for dental implants and related bone grafts; 4) Understand soft tissue manipulation and maintenance for dental implants and 5) Understand the cutting edge surgical methods and products along with the prosthetic techniques in implant dentistry today.

We extend a warm welcome to all the participants and their families and thank you for your support. This program will provide you with the opportunity to network, exchange information, find solutions, and socialize with colleagues, friends and their families from around the country and around the world.

Please allow the staff to make your stay more enjoyable and rewarding. The staff will be there to assist you further your implant education, enjoy your encounters with your friends and colleagues, and experience Miami's superb entertainment, nightclubs, dining, shopping, and sightseeing.

Enjoy the meeting, and be prepared for a fascinating, challenging, educational, and thoroughly enjoyable experience! We look forward to welcoming each and every one of you!

Sincerely,

Arun K. Garg, D.M.D.

PRE-SYMPOSIUM COURSES Thursday, April 24, 2008

8:00am to 5:00pm **PRE-SYMPOSIUM REGISTRATION**

9:00am to 4:30pm

BLOCK GRAFTING WITH AUTOGENOUS ANTERIOR MANDIBLE, AUTOGENOUS ASCENDING RAMUS AND ALLOGENEIC PUROS® BONE BLOCKS FOR RIDGE WIDTH AND HEIGHT

Dr. Arun K. Garg / Course fee: \$675

Intraorally harvested block grafting will be discussed and step by instruction provided for those starting out or to refine the technique for those experienced with the technique, as well as a dialogue to minimize complications and maximize success rates with these procedures. Guidelines will be provided as to what graft to select and why for each situation.

In addition a presentation on Allograft bone blocks will be presented which have been used for years as a viable alternative to autogenous grafts. They eliminate many of the disadvantages associated with autogenous grafts such as morbidity, limited volume of bone and harvesting time. This program will cover how allogeneic Puros® block grafts are acquired, processed and clinically utilized.

Learn step by step techniques to increase ridge height and width predictably. Instrumentation and fee schedules for block bone grafts will also be discussed.

This program will be conducted with lectures, a hand-out and a Hands-On workshop on a take home model. Additionally this program will serve as a certification program for the Puros® Block graft training.

9:00am to 5:00pm

CONTEMPORARY AESTHETIC IMPLANT DENTISTRY

Dr. Abdelsalam Elaskary / Course fee: \$500

Are you having difficulty in designing a treatment plan for implant supported restorations in the aesthetic zone?

Are you having difficulty in creating a relationship between facial features and the future implant supported prostheses?

Do you sometimes find aesthetic clinical Implantology techniques unachievable in your daily routine practice?

Have you recently had undesired treatment complications in the aesthetic zone?

Do you wish to have full knowledge on peri-implant soft tissue handling?

From the author of the textbooks *Reconstructive Aesthetic Implant Surgery* and *Fundamentals of Esthetic Implant Dentistry*. A unique course that is designed for clinicians who desire to update their clinical skills and experience in the field of aesthetic implant dentistry; a step-by-step extensive clinical approach that provides guidance to achieving an esthetic implant-supported restoration that replicates natural teeth in appearance and solving the possible clinical difficulties that arise during the course of the treatment. A comprehensive clinically based course that is offered to provide a contemporary protocol for aesthetic cases starting from pre-surgical planning until case completion. The course also overviews possible treatment complications of dental implants in the aesthetic zone, and provides solutions.

PRE-SYMPOSIUM COURSES Thursday, April 24, 2008

9:00am to 5:00pm

CT GUIDANCE TECHNOLOGY FOR DENTAL IMPLANTOLOGY

Dr. Daniel McEowen / Course fee: \$395

With the growing acceptance and availability of cone beam tomography, clinicians now have the opportunity to manage diagnostic information for predictable implant supported prosthetics. This presentation will examine the latest technology available to plan implant surgeries for predictable and successful outcomes. The presentation will also provide step by step instruction in the use of the hardware and software involved. Additionally, the presenter will share his clinical experiences using these techniques to determine the treatment plan and then to guide through implant placement and restoration.

1:00pm to 5:00pm

TISSUE REGENERATION VS. TISSUE GRAFTING

Dr. Donald Callen / Course fee: \$375

As teeth are lost, the alveolar bone is lost with them. It is the responsibility of the dental profession to diagnosis the current and potential future problems. The dentist is also to inform the patient of various treatment modalities to restore and maintain the integrity of the natural arch form for the replacement of the lost teeth. The result of the procedure should support dental implants, dentures, or a fixed bridge for long term function and esthetics for the patient. Should the procedure be a bone graft, soft tissue graft, a tissue regeneration procedure, or tissue augmentation procedure. What is the difference? Should the graft material be osteoinductive or osteoconductive? Should the material be an Autograft, an Allograft, a Xenograft, or an Alloplast? Should a membrane be utilized? What determines the success of the procedure? Will the result support the prosthetic replacement? These questions and other questions regarding restoration and ridge preservation of the upper and lower arches and techniques will be answered in this presentation.

The purpose of this presentation is to provide evidence based (Science above Opinion) information to evaluate grafting materials for periodontal, restorative, and implant dentistry based upon clinical, esthetic, functional, and histological results in humans.

Course Objectives

- To identify the need for tissue regeneration.
- To understand why tissue regeneration is needed.
- To select the proper materials based upon the objective.
- To determine the time and sequence for ridge preservation.
- To defend the procedure clinically, functionally, and histologically.

7:00am	Registration / Continental Breakfast / Exhibits Open
7:45-8:00am	WELCOME • Arun K. Garg, D.M.D.
8:00-9:00am	Dr. Abdelsalam Elaskary, B.D.S. TREATMENT OF COMPLICATIONS WITH DENTAL IMPLANTS IN THE AESTHETIC ZONE
9:00-11:00am	Jin Y. Kim, D.D.S. MAINTENANCE OF SOFT AND HARD TISSUE AROUND IMPLANTS IN THE AESTHETIC ZONE
11:00-11:30am	Morning Break & Exhibits
11:30-12:30pm	Arun K. Garg D.M.D. MAXILLARY SINUS BONE GRAFTING – AN INNOVATIVE, PREDICTABLE AND EFFICIENT METHOD FOR THE CRESTAL APPROACH
12:30-1:30pm	Lunch
1:30-2:30pm	Julian Osorio D.D.S., M.S. ACHIEVING IDEAL ESTHETICS WITH PATIENT-SPECIFIC ZIRCONIA ABUTMENTS
2:30-3:30pm	Rolf Ewers, D.D.S., Ph.D., M.D. 20 YEARS EXPERIENCE WITH BONE FORMING MATERIALS TO ENHANCE MISSING BONE. LONG TERM RESULTS AND FUTURE PERSPECTIVES WITH COVALENT BINDING OF BMP-2 TO BONE FORMING MATERIALS
3:30-4:00pm	Afternoon Break & Exhibits
4:00-4:45pm	Jack Krauser, D.D.S. TEAM INTEGRATION—PRACTICALITY WITH CONE BEAM CT SCANNING AND GUIDED SURGERY APPLICATIONS
4:45-5:30pm	Olya Zahrebelny, D.D.S. MEDICAL INSURANCE COVERAGE AND ACCESSING IT FOR DENTAL IMPLANTS, RIDGE PRESERVATION AND SINUS GRAFTING
5:30-7:30pm	Reception and Table Clinics in Exhibit area

TABLETOP PRESENTATIONS

Friday, April 25, 2008 • 5:30-7:30pm

Participate in our Tabletop presentations. Showcase your challenging cases or present an implant related topic to your friends and colleagues. This allows participants to showcase their innovative and/or excellent cases with colleagues, and to simultaneously enjoy a social reception at the symposium.

The tabletop presentations will be held in the exhibition area.

SCIENTIFIC SESSIONS

Saturday, April 26, 2008

- 7:00am Registration / Continental Breakfast / Visit Exhibits
- 8:00-9:00am Katya Archambault, D.D.S.
SOFT TISSUE GRAFTING FOR NATURAL TEETH AND DENTAL IMPLANTS
- 9:00-10:30am Charles A. Babbush, D.D.S., M.Sc.D.
EXTRACTION AND IMMEDIATE REPLACEMENT: SINGLE TOOTH TO FULL MOUTH
- 10:00-10:30am Morning Break & Exhibits
- 10:30-12:30pm Donald Callen, D.M.D., M.S.
SYSTEMIC LINKS TO PERIODONTAL BACTERIA ABOUT DENTAL IMPLANTS
- 12:30-1:30pm Lunch Break
- 1:30- 2:30pm Steven A. Guttenberg, D.D.S., M.D.
THE USE OF CONE BEAM CT IMAGING TO ASSIST IN HARD TISSUE RECONSTRUCTION AND IMPLANT PLACEMENT
- 2:30-3:30pm Renzo Casselini, M.D.T.
ESTHETIC ANTERIOR RESTORATIONS FOR THE PATIENT WITH HIGH EXPECTATIONS
- 3:30-3:45pm Afternoon Break & Exhibits
- 3:45-4:45pm Charles S. Barotz, D.D.S
EFFECTIVE MARKETING AND PERSUASIVE CASE PRESENTATION; IF YOU CAN'T GET'EM THROUGH THE DOOR AND GET THEM TO SAY YES... WHY BOTHER
- 4:45-5:30pm Gerald Niznick, D.D.S., M.S.D.
APPLICATION SPECIFIC DENTAL IMPLANTS
- 5:30pm Adjourn for the day

Speakers subject to change.

SPEAKERS

CHARLES A. BABBUSH, D.D.S., M.Sc.D.

Director of the Dental Implant Center, Cleveland, Ohio; Clinical Professor of Oral and Maxillofacial Surgery; Director of Dental Implant Research at Case School of Dental Medicine, Case Western Reserve University, Lyndhurst, Ohio

CHARLES S. BAROTZ, D.D.S.

Dr. Barotz has lectured internationally on "Drop Dead Gorgeous Dentures," "Implants," and "Practice Mangement" with an emphasis on marketing and case presentation. He has also produced multiple CE videos.

KATYA ARCHAMBAULT, D.D.S.

Private Practice, Quebec, Canada

DONALD CALLEN, D.M.D., M.S.

Private practice limited to Periodontics with an emphasis on tissue regeneration and implant dentistry in Little Rock, AK; Assistant Clinical Professor, Department of Periodontics at Louisiana State University School of Dentistry; Assistant Clinical Professor, Department of Periodontics at the University of Florida; Associate Professor; Department of Periodontics at the University of Tennessee, College of Dentistry; Diplomate of the International Congress of Oral Implantologists

RENZO CASSELLINI, M.D.T.

Renzo Casellini is a Master Dental Technologist, trained in Switzerland where his family has been in the dental industry for four generations. He is Instructor of Restorative Dentistry at Loma Linda University and Associate Professor of Implant Prosthodontics at Biodonto Dental School in Brazil. His articles on implants and esthetics have been featured in over 45 professional publications.

ABDELSALAM ELASKARY, B.D.S.

Private practice limited to periodontics, dental implants and oral reconstruction, Alexandria, Egypt. Visiting lecturer at New York University.

ROLF EWERS, D.D.S., PH.D., M.D.

Chairman and Head of the University Hospital of Cranio-Maxillofacial and Oral Surgery of the Medical School, University of Vienna, Austria; Chairman, 17th International Conference on Oral & Maxillofacial Surgery, Vienna, Austria, August 2005; Oral & Maxillofacial Surgery Foundation Research Recognition Award 2005 of the Oral and Maxillofacial Surgery Association.

STEVEN A. GUTTENBERG, D.D.S., M.D.

President, American College of Oral and Maxillofacial Surgeons; Diplomate, American Board of Oral and Maxillofacial Surgery; Chair, Training and Education Committee, OMS Residency, Washington Hospital Center; Private Practice, Washington D.C.

JIN Y. KIM, D.D.S., M.P.H., M.S.

Diplomate, American Board of Periodontology; Diplomate, American Board of Oral Implantology/Implant Dentistry; Lecturer at UCLA School of Dentistry

JACK KRAUSER, D.M.D.

Private Practice of Periodontics and Dental Implants, Boca Raton, FL; Treasurer, International Congress of Oral Implantologists

DANIEL MCEOWEN, D.D.S.

Founding member of World Clinical Laser Institute. Mastership in laser dentistry from World Clinical Laser Institute. Lecturer for Ultradent Dental Products and advanced endo techniques. Certified in straight wire orthodontics, as well as Invisalign.

GERALD NIZNICK, D.D.S., M.S.D.

President, Implant Direct; Diplomate, International Congress of Oral Implantologists; Honorary Fellow International Congress of Oral Implantologists

JULIAN OSORIO, D.M.D, M.Sc.D.

Private practice of Prosthodontics with an emphasis on implant dentistry and esthetics, Boston, MA. Founder of Atlantis Components, Inc., which was acquired by Astra Tech in 2007; Assistant Clinical Professor, Division of Graduate and Post-Graduate Prosthodontics, Tufts University School of Dental Medicine

OLYA ZAHREBELNY, D.D.S.

Has practiced in both hospital and private practice environments for the past 28 years. She is a former consultant to commercial and government insurance programs, former faculty at Northwestern University Dental School, and former attending physician in the general practice residency program at the University of Illinois. She was selected in 1999-02 by Dentistry Today as a leader in continuing education. She has also authored seven medical billing manuals for dentists. Dr. Zahrebelny is a principal in the Z Group, a practice management company.

REGISTRATION INFORMATION

SCIENTIFIC SESSION: APRIL 25-26, 2008 (FRIDAY-SATURDAY)

Doctors:	\$595
Auxiliary:	\$265

PRE-SYMPOSIUM COURSES: APRIL 24TH, 2007 (THURSDAY)

Dr. Arun K. Garg	\$675
Dr. Abdelsalam Elaskary	\$500
Dr. Daniel McEowen	\$395
Dr. Donald Callen:	\$375

All refunds must be requested in writing no less than 30 days (by March 24th, 2008) prior to the conference to receive a full refund. After March 24th, 2008, no refunds will be provided. All refunds will be issued to the requestor after the conference.
